Why do I need travel insurance?

These days, travel insurance is much more than just protecting your savings against travel complications; it goes further to protect your family and travel companions against identity theft, medical emergencies and even unfortunate terrorist events. Travel insurance coverage can be beneficial if the following applies:

- You can't afford to lose the money you invested in your travel
- You can't afford to cover unexpected medical and emergency costs at your destination (medical evacuation to the US is estimated to be \$100,000+)
- Most medical insurance plans do not cover outside of the US medical care.
- Your flight is delayed and you have to stay overnight in a hotel, without your luggage, and your original reservations are non-refundable
- Your identity is stolen from your luggage or wallet
- Your baggage is delayed or lost
- A family member passes away or falls ill while on your trip and you have to interrupt or cancel your trip
